

BEFORE
THE PUBLIC SERVICE COMMISSION
OF SOUTH CAROLINA

DOCKET NO. 2019-94-T

Application of)
)
E. E. WARD MOVING & STORAGE)
CO., LLC)
)
For a Class E (Household Goods))
Certificate of Public Convenience and)
Necessity for Operation of a Motor)
Vehicle)

**AFFIDAVIT OF
SHIPPER WITNESS**

Being duly deposed and sworn, Affiant states:

1. My name is Leslie Blaney, and my address is
1808 Woodcrest Circle Rock Hill, SC 29732

2. I am giving this affidavit in support of the application of E. E. Ward Moving & Storage Co., LLC for a Class E Certificate of Public Convenience and Necessity with statewide authority to move household goods to points and places throughout the state of South Carolina.

3. I am employed as/by Keller Williams as a real estate broker and agent. I have been employed in this position since 4/1/2017, and I have been employed in the real estate industry since 2/17. My responsibilities include real estate sales.

4. I know of the need for household goods movers in South Carolina from personal experience and from real estate industry trends. On a personal level, I frequently encounter people who are moving from one home to another, and one part of South Carolina to another. They often ask me to recommend moving companies. There are many moving companies, but ones that are good, reliable, and available are always in demand. As a realtor, I am also familiar with South Carolina's housing trends. According to the South Carolina Realtors, new listings were up 4.5% in 2017 and all regions of the state experienced growth, and sales prices were up across all home sizes. Housing inventory is down because of rising demand. As the South Carolina Realtors observe:

Having the financial ability to make a move clearly seems feasible to any eager buyers amidst a health economy, whether life events such as marriage, children, employment change or desirable downsizing is the reason for moving.

I have attached a copy of the report as Exhibit A to this affidavit.

5. Based on my knowledge of the need for household goods movers in South Carolina. I believe the public interest would be served by granting a Certificate of Public Convenience and Necessity to E. E. Ward Moving & Storage Co., LLC. E.E. Ward is good, reliable, and available. The demand for movers of this type is such that, with increased demand, the market is not currently being adequately served.

6. I also would like the Commission to know the following information about the Applicant:
They are an experienced and honest company who will do good work and treat their customers well.

Further Affiant sayeth not.

Leslie Blaney

Annual Report on the South Carolina Housing Market

FOR RESIDENTIAL REAL ESTATE ACTIVITY FROM THE STATE OF SOUTH CAROLINA

2017

Annual Report on the South Carolina Housing Market

FOR RESIDENTIAL REAL ESTATE ACTIVITY FROM THE STATE OF SOUTH CAROLINA

There is an ongoing and undeniable national housing shortage. Year-over-year inventory levels have been down in most markets for several years now, and that trend is expected to persist in 2018. Consumers are still purchasing for the first time and relocating to other, presumably more ideal homes.

Having the financial ability to make a move clearly seems feasible to many eager buyers amidst a healthy economy, whether life events such as marriage, children, employment change or desirable downsizing is the reason for moving.

There are further positive signs on the horizon, as builder confidence has improved and construction job gains are measurably higher. It will still take more effort than a lone year can provide for building activity to reach a needed level for inventory balance, but a step in the right direction is welcome.

More sellers should feel ready and willing to list in 2018. Economic indicators such as unemployment rates and consumer confidence are in an improved state, and sellers currently hold the keys in the buyer-seller relationship. This does not mean that sellers can set their price and watch the offers roll in. On the contrary, buyers will be poised to test prevailing price points, particularly in markets where home price increases are outpacing wage growth and in light of the fact that mortgage rates are expected to increase further in 2018.

Sales: Pending sales increased 4.8 percent, landing at 85,753 to close out the year. Closed sales were up 4.5 percent to finish 2017 at 83,570.

Listings: Year-over-year, the number of homes available for sale was lower by 4.6 percent. There were 28,933 active listings at the end of 2017. New listings increased by 4.5 percent to finish the year at 114,266. Home supply was once again lower than desired in 2017.

Bedroom Count: Increases in sales prices occurred across homes of all sizes over the last year. In 2017, properties with 2 bedrooms or fewer saw the largest growth at 7.6 percent. The highest percent of original list price received at sale went to properties with 4 bedrooms or more at 97.6 percent.

Prices: Home prices were up compared to last year. The overall median sales price increased 5.1 percent to \$189,250 for the year. Prices are expected to rise at a slow rate in 2018. Single Family home prices were up 5.3 percent compared to last year, and Condo home prices were up 5.0 percent.

List Price Received: Sellers received, on average, 97.1 percent of their original list price at sale, a mild year-over-year improvement of 0.2 percent. As sales prices are expected to increase further in 2018, this may bring original list price received at sale up as well.

The historic tax reforms due to make their mark in 2018 will have varying effects across the nation. High-priced coastal markets may feel the changes stronger than the middle of the country. And some potential buyers may see the changes as providing less of an investment benefit for homeowners.

Some observers warn that there might be enough lack of incentives to stifle homeownership, which is already near 50-year lows. Policymakers claim that the reforms will help boost economic activity and profitability. Whichever direction we ultimately turn, the next year appears to offer a dalliance with balance intended to intrigue both sides of the transaction toward a common middle ground.

For those who have their minds made up to buy a home in 2018, it will likely be a competitive ride. The trend has widely been toward fewer days on market and fewer months of supply, indicating strong demand despite higher prices and low inventory. This could prove tricky for first-time home buyers, especially for those who are impacted by student loan debt, content to rent or among the more than 15 percent of adult children still living at home. In a landscape rife with new variables, residential real estate is certainly poised to offer an interesting and active year ahead.
